Main Selling Points		A complete range of options & accessories suitable for every application. Part L1 compliant; Part L2 compliant for all non-desk based task areas or when installed with controls.	Ideal for domestic & commercial installations where lower wattage or lumen value is required. Part L1 compliant; Part L2 compliant for all non-desk based task areas or when installed with controls.	Perfect for domestic installations because it's only 4.9W, meaning the product does not need to comply with Part L1 of the building regulations.
